Short CV Project Entry

Multiple PDF RAG Assistant

Getamesay Zegeye | Independent AI project

- Built a Streamlit assistant for question answering across multiple PDFs using pypdf, Gemini embeddings, FAISS and Gemini Flash-Lite.
- Implemented overlapping page-aware chunks, normalized semantic retrieval, file/page citation prompts and an expandable source-evidence panel.
- Added file-content fingerprints and transactional index replacement to prevent querying stale uploads; documented API quota and retrieval failure modes.

Skills: Python, Streamlit, NumPy, FAISS, retrieval-augmented generation, API integration, source-grounded evaluation.
